

**ELEVEN DAYS ONLINE CAPACITY BUILDING  
PROGRAMME ON INDIAN KNOWLEDGE SYSTEM**

Jointly Organized by

**LAW TEACHERS INDIA**

&

**CENTRE FOR ADVANCED STUDY IN  
INTERNATIONAL HUMANITARIAN LAW,  
RAJIV GANDHI NATIONAL UNIVERSITY OF LAW, PUNJAB**

**OCTOBER 14-24, 2024**

The NEP, 2020 recognizes this rich heritage of ancient and eternal Indian knowledge and thought as a guiding principle. The Indian Knowledge Systems comprise of Jeevan Darshan that have evolved out of experience, observation, experimentation, and rigorous analysis. This tradition of validating and putting into practice has impacted our education, arts, administration, law, justice, health, manufacturing, and commerce. This has influenced classical and other languages of Bharat, that were transmitted through textual, oral, and artistic traditions. “Knowledge of India” in this sense includes knowledge from ancient India and its successes and challenges, and a sense of India’s future aspirations specific to education, health, environment and indeed all aspects of life. In order to make the awareness on the Indian Knowledge System Eleven Days Online Capacity Building Programme on Indian Knowledge was organised by the Law Teachers India and Centre for Advanced Study in International Humanitarian Law, Rajiv Gandhi National University of Law, Punjab, India from October 14-24, 2024.

**150 participants** participated in this event and the topics like Indian Knowledge System and Spirituality and Justice, Indian Knowledge System and Sociology, Indian Knowledge System and Public Administration, Indian Knowledge System and Management, Indian Knowledge System and Economics, Indian Knowledge System and Political Science, Indian Knowledge System and Political Science, Indian Knowledge System and Language, , Indian Knowledge System and Intellectual Property Rights were discussed by the renowned Professors of India.

India has a vast tradition of Sanskrit texts dealing with various scientific thoughts. Number of treatises on the topics like Agriculture, Animal Husbandry, Chemistry, Astronomy, Mathematics, Botany, etc. focus on the development of thoughts in the concerned area. This course aims at introducing a student with various treatises on physical as well as social sciences and their contribution to modern branches of sciences. Taking into consideration the vast scope of these sciences, major treatises will be introduced in the course thereby making a student to ponder over the ancient knowledge systems of India. The introduction of the course “Indian Knowledge Systems (IKS) “by the National Education Policy (NEP) 2020 is aimed at revitalizing and promoting India's traditional knowledge systems, which have been integral to its cultural and intellectual heritage for centuries. The course reflects a broader shift towards a more inclusive and holistic approach to education, recognizing the value of both modern and traditional knowledge systems in shaping well rounded individuals and society. Bharat is considered one of the oldest civilizations of the world. Some of the archaeological evidences proved existence of Indus civilization in 7000 B.C. Bhartiya traditions, culture, cultural activities, rituals, sacraments, painting, art of dancing, art of singing etc. is being practiced till the modern times without knowing scientific approaches behind that. Eternity of Indian knowledge system proved itself that not only many rituals but also many traditions, many streams of knowledge like astrology, mathematics, physics, chemistry, biology, yoga and meditation had been following from the starting to till now with some changes, in the form of traditions when that were started but overall essence of Indian knowledge system we are following continuously. This course is for undergraduate students to inculcate Indian values in the students. It will promote advance study and inter disciplinary research on all aspects of Indian knowledge system

**This objectives of the programme achieved are**

It provided a tribune of our rich culture and traditions of Indian knowledge system to faculty and students of various discipline.

- Developed over all understanding of the various components of Indian knowledge system.
- Successfully spread awakening about scientific and eternal knowledge of the Indian knowledge system.
- promoted advance study and inter disciplinary research on all aspects of Indian knowledge system. Adding career, professional and business opportunities to the students of various discipline.
