The Rajiv Gandhi National University of Law (RGNUL), Punjab, was established by the State Legislature of Punjab by passing the Rajiv Gandhi National University of Law, Punjab Act, 2006 (Punjab Act No. 12 of 2006). The Act incorporated a University of Law of national stature in the State of Punjab, thereby fulfilling the need for a Centre of Excellence in Legal Education in the modern era of globalization and liberalization. The University has been accredited with 'A' grade by NAAC. The University functions at its permanent Headquarters in Village Sidhuwal in an area of 50 acres.

The University is dedicated to provide holistic legal education and to promote quality research in law and allied disciplines. Over the years, it has addressed a large number of contemporary social issues and invested a lot of innovative thinking in its instructional and research programs. Towards this, it always welcomes collaboration with reputed institutions and organisations so as to build a platform for interchange of ideas on vexed social issues and problems confronting the society.

THEME

“ROLE OF IPR IN A GLOBAL ECONOMY: CHALLENGES AND ISSUES”

Intellectual Property is the root of the intellectual development of any country. With the robust development of IPR, the old and some of the existing management constructs and approaches would have to change. From striking a balance between IP rights protection and public policy to promoting IP rights education, Indian legislature has made efforts to implement better IP rights enforcement and protection. Judiciary has not been far behind in contributing to the development of IP rights. Litigation regarding trademarks, copyrights and patents has set new precedents, with the Indian courts adopting international principles and rulings to protect IP rights in order to deter infringers.

The Seminar will provide the participants with an understanding in IP laws and the extent to which it protects inventions and designs. The seminar will consist of a number of sessions in which presentations on various aspects of IPR will be given by experts and practitioners, followed by a discussion.

The objectives of the seminar are:

1. To raise awareness on the issues of intellectual property and their violations.
2. To identify educational and social strategies to address the issue.
3. To collect, share and develop innovative responses and best practices for elimination and prevention of violation of intellectual property rights.
