The academic curriculum of the University is largely oriented towards the use of latest technology. The whole campus including Hostels are WiFi enabled.</p> <p>. These Labs are also equipped with latest windows and Microsoft office and all necessary academic software's. To provide the best use of IT in the field of education the University is also planning to install Interactive board, Projectors and Multimedia podium in each class rooms of RGNUL new campus at Sidhuwal, Patiala. The software supplied with the interactive whiteboard will usually allow the teacher to keep notes and annotations as an electronic file for later distribution either on paper or through a number of electronic formats.</p> <p>The University is having 1Gbps connectivity for its campus through BSNL under NMEICT project. With the implementation of this mission the RGNUL has become a part of National Knowledge Network (NKN) through BSNL. This project provides E-connectivity for the students and the teachers; it helps the students in the field of Law and having communication with other Universities and also for their placement. To provide secure Internet connection the University is having Cyberoam (Unified threat Management System) at its premises. It is an appliance that delivers real-time network protection against evolving Internet threats through unique user based policies. These hardware firewalls safeguard the network from the outside threats and intrusions. Use of IT facilities requires prior registration and the granting of a user code or an individual password. The RGNUL campus is a Wi-Fi campus with access to Internet, Intranet and e-mail for 24x7 hours.</p> <p>Keeping in view the essential importance of computer networking, the University initiated its efforts by surfacing a plan for developing a Campus Wide Computer Network with a mandate to link together all the computing resources located in different departments, Research Centres and other buildings of the University for easy and useful access by the University community comprising of faculty, research personnel, students and staff to a host within and/or outside the University of IT- based services such as the e-mail, internet and access to a large variety of knowledge sources available. The IT department with an emphasis to make Rajiv Gandhi National University of Law a fully IT enabled University. Campus Networking, University website, Internet and Intranet is also maintained by the IT department of the University and they are implementing the project at RGNUL new campus in a phased manner. The first phase of the project was to Provide Wi-Fi Internet and Intranet facility to its Hostels and Faculty Residence has already been implemented at RGNUL new campus Sidhuwal, Patiala. In the second phase all departments, Hostels, Faculty Residence of the University will be connected with optical fiber backbone. Server Room equipped with Blade Server, Central Switches and other related equipment like Hardware/Software and infrastructure will be established in the IT, Department of the University. The Single mode/multi-mode fiber-optic cabling will be laid over a distance of about 2 km extending to various departments of the University. Presently the University has the facility of Video Conferencing. This has provided a facility for interaction with the other institutions and organizations at the national and international levels. It also serves the purpose of conducting interviews, placement of students, presentation by students and lectures by experts.</p>	<p>(i) The members appreciated the addition of new teaching tools and other ICT Equipments available at RGNUL as referred in the agenda note.</p> <p>(ii) The members were apprised that all these tools and equipments shall be put to full use at the new campus.</p> <p>(iii) New Campus shall be academically functional from the next academic session.</p>	<p>(i) The members appreciated the addition of new learning tools and other ICT equipments at RGNUL.</p> <p>(ii) These tools and equipment need to be put to optimum use.</p>	<p>To put the teaching tools, ICT Equipment and other modern facilities to the optimum use.</p>
